A Leading Company

“ in providing professional training programs and corporate/individual training courses around the world, offering a wide range of professional courses in a variety of fields and specialties backed by experienced experts with distinguished backgrounds. We are committed to equipping our trainees with the essential skills and knowledge required to achieve success in their career paths. **The Scandinavian Academy Training Center** is distinguished by offering a comprehensive suite of training courses across multiple professional specializations, including leadership, management, information technology, finance, and others, with over 32 specialized fields available to advance your career. ”

Who We Are?

Scandinavian Academy Training Center

“The Saudi branch of **Scandinavian Academy for Training** was established in the Kingdom of Saudi Arabia as a strategic extension of the parent academy in the Kingdom of Sweden, aiming to meet local and regional market needs by delivering high-quality specialized training services. This new branch reflects the Academy’s deep commitment to developing human skills and capabilities in the Kingdom, in alignment with Saudi Vision 2030, which seeks to build a sustainable and prosperous economy based on enhancing human resources.”

“The Saudi branch focuses on offering flexible, integrated training courses aimed at empowering trainees to enhance their skills and develop expertise aligned with local and regional market demands. Through these programs, the Academy fosters innovation and creativity within the workforce, strengthening long-term capacity. We are committed to introducing world-class best practices in training and development, enabling participants to gain maximum benefit, contribute effectively toward their organizations' goals, and deliver outstanding performance in their work environments.”

“Believing that investing in human capital is the foundation for achieving sustainable growth and development across all sectors, the Saudi branch strives to provide a comprehensive package of training programs specifically designed to fulfill the needs of organizations and individuals in the Kingdom. These programs cover a diverse set of scientific, managerial, and technological disciplines, alongside other vital fields such as economics, law, and the energy sector.”

“Through this comprehensive training strategy, the Academy's Saudi branch aims to contribute to achieving sustainable development in the Kingdom by developing the workforce and enhancing its long-term capabilities. We are committed to delivering global best practices in training and development, enabling trainees to maximize the benefit of the provided programs and contribute effectively to reaching their organizations' goals.”

Who We Are?

Scandinavian Academy Training Center

To be global leaders in providing professional training programs

grounded in pioneering, sustainable professional development for all clients by delivering optimal training that exceeds expectations, marked by innovation, creativity, and positive adaptation to internal and external changes and developments.

Our Vision

Scandinavian Academy Training Center

At the Scandinavian Academy Training Center

we hold a clear and comprehensive mission: pioneering and sustainable professional development for all clients by training them to standards that exceed their expectations with innovation and creativity. We strive to achieve this vision by delivering advanced training programs aligned with global best practices so that trainees become leaders in their personal and professional lives. We accomplish this through positive interaction with external developments and modern technology, engaging highly qualified experts and consultants with proven practical expertise across diverse specializations. We formulate integrated solutions, uphold the highest professional standards, assist at all times, listen attentively to client requirements, design innovative solutions, continuously add value, and encourage employees to actively contribute to building their organizations and achieving their strategic goals.

Our Values

Scandinavian Academy Training Center

5

Training and development are strategic imperatives for achieving sustainable growth.

To achieve this goal, we adhere to the following:

- Delivering highly relevant and effective professional development programs that foster sustainable growth.
- Preparing and qualifying trainees to satisfy labor market demands at the highest standards.
- Building partnerships with major international and specialized entities while enhancing trust and credibility in this field.
- Identifying training needs for public, private, and oil sector organizations.
- Preparing and developing training programs, packages, and supporting media.
- Effective training and qualification that directly improves performance.
- Providing training programs that achieve organizational excellence and maximize human asset outcomes in business entities.
- Executive coaching for managers by creating the right time and environment to address their specific training requirements.
- Commitment to providing high-quality products and unmatched customer service.
- Continuous evaluation, development, and updating of scientific and practical training systems and procedures.
- Transferring top international expertise through the Scandinavian Academy's extensive network of foreign relationships, particularly European institutions across managerial and technical fields.

Our Goals

Scandinavian Academy Training Center

Transferring scientific concepts and skills to client organizations to help them keep pace with future developments and changes, generating real value and tangible transformation.

Enabling every participant to benefit from the best available practices; participants complete every training program equipped with practical tools to apply their knowledge directly.

Our Goals

At Scandinavian Academy Training Center

we ensure all client needs are fully met. Through our specialized department, we are pleased to design customized corporate training courses tailored specifically to your efficiency and training requirements. We work with you using innovative and advanced methods to build diverse development programs that fulfill both personal growth and organizational business goals.
