## Introduction

Strategic performance management is high on the agenda of most managers and senior executives. Insufficient or misunderstanding of the performance management concepts often produces poor results and frustrations. Real benefits are only realised by designing and integrated system across the entire organisation based on visible and commonly understood strategic objectives using executive dashboards.

Sometimes referred to as a strategic dashboard, an executive dashboard is intended to give executives a holistic overview of the enterprise and how it is performing against established Key Performance Indicators (KPIs). Dashboards consolidate and arrange numbers, Key Performance Indicators (KPIs), and sometimes performance scorecards on a single screen, tailored for C-level executives and managers, allowing them to get a big picture view of the organisation against critical metrics, identify opportunities for expansion, and see where improvements are needed. The goal is to deliver a graphical interface using real-time data, enabling executives to make data-driven decisions whenever needed.

This training course will give you the tools you need to implement your strategy and deliver better performance for your organisation. With an executive dashboard, you can make sense of massive amounts of data and make fact-based decisions in real time.

### This training course will feature:

- Managing and measuring organisational performance

- Identifying, measuring and managing organisational tangible and intangible value drivers

The Scandinavian Academy for Training Center adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant receives the training material (both theoretical and practical) in printed form and saved on a CD or flash drive. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training Center.

### **Program Timings:**

- 9:00 AM to 2:00 PM
