Course Overview

Do you find it difficult to track the outcome of your business strategy? Do you find it difficult to formulate the key indicators for your business, senior management team, and then cascade it to other levels as well? Do you know that Key Performance Indicators or the KPI's for your business can help you deal with this challenge with ease? The key to achieving business goals is when the senior management team can define the exact path to success and its measurement criteria for all the stakeholders, and employees of the organisation.

Course Objectives

- Understand the impact of KPI's on your business
- Design a Performance Measurement System to drive business productivity for all the stakeholders
- Define, develop, and facilitate the KPI's Selection Process, and its Documentation
- Understand and counter the challenges in the process
- Practical application of the learnings

Training Methodology

customize the training as per your specific industry requirements. The presentation led by the instructor is highly interactive. This is further complemented by the inclusion of several management games, paper-pencil exercises, activities, role plays, videos, and robust practice sessions. Your exposure gets better when participants across other industries share their experiences in the group as well.
