Course Overview

Safety and security are high on the docket in our contemporary global community. There are always significant interests at stake in different sectors, ranging from politics, civil service, and private businesses. The safety of the citizens, workers, structures, properties and even public infrastructural installations poses substantial difficulty when there are no effective mechanisms in place. Indeed, working in this field imposes you to keep a cool head and bring groups together for a prosperous alliance. You need to assess and assay pitfalls and defuse critical situations where necessary.

The training program approaches the operation of safety and security from necessarily diverse angles. Safety, in any case, is the product of collaborative action and thus requires citizens to contribute to its general operation laboriously. It is the task of specialized professionals to make vittles for equal participation, establishing a platform for people and parties involved in safety and security to network.

Also, trainees will likewise learn all about the protection of people and specialized equipment. Still, and most importantly, you will need to understand how people perceive security to anticipate factual pitfalls and gestures towards them. This makes it possible for you as a trainee to contribute to make your company, organization, or your immediate society viable. All these constituents you will find covered throughout the program of Safety and Security Management course.

The Scandinavian Academy for Training Center adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant receives the training material (both theoretical and practical) in printed form and saved on a CD or flash drive. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training Center.

Program Timings: 9:00 AM to 2:00 PM

The program includes:

- A daily buffet provided during the sessions to ensure participants comfort.
- A closing ceremony on the final day to distribute certificates and celebrate participants achievements.
- **Note: All prices are exclusive of 15% Value Added Tax (VAT).**
